

THE WHOLE FLOOR, WRITTEN DOWN ONCE.

Every car with its photos and its true cost. The buyers waiting for one like it. The paperwork with your name on it. And at the end of the day, what you actually made.

Works without internet

One-time payment

Urdu invoice & agreements

Runs on one Windows PC

WHAT IT IS

**A used-car
showroom,
on one
screen**

Stock, buyers, sales, expenses, commission and the paperwork.

WHAT IT NEEDS

**One Windows
PC**

Anything from the last ten years, and an A4 printer. No internet for the daily work.

ALREADY IN IT

854 variants

49 makes and 419 models. Three letters finds the car.

WHAT STAYS PRIVATE

**What you
paid**

Never in a WhatsApp message, never on a salesman's screen, never on paper.

**01 A car comes
in
Priced and
photographed**

**02 It goes on
the floor
With its own
stock number**

**03 It is sent out
WhatsApp,
window card**

**04 A buyer is
matched
Nobody rung
twice**

**05 It sells
Margin,
commission,
cash**

LOT 01

A CAR COMES IN

Pick the make and model from the list, put in what you paid and what you are asking. It lands on the floor with its own stock number, and from that minute everything spent on it sticks to it.

LOT 02

One tap puts the car into WhatsApp with its photos and the asking price. Not the purchase price. Not the floor price. And a window card prints for the windscreen with a QR code the customer can scan.

Sharing a car: the message, the photos and the asking price, ready to send

The message first

You read it before it goes.
The car, the photos, the
asking price — and nothing
else.

Window card

A printed card for the windscreen, with the car's details and a QR code for the customer's phone.

Cars at other dealers

A car you only know of can be offered to a buyer, with where it came from kept to yourself.

LOT 03

NOBODY FORGOTTEN, NOBODY RUNG TWICE

Write down what a customer wants once. From then on the system watches every car that arrives, lists the ones that fit underneath his name, and keeps them flagged as new until somebody marks him as told.

LOT 04

Agreed price, what was taken today, a part exchange if there is one, the salesman's commission. The balance is always current, an overpayment is refused, and the margin stays true because every rupee spent on that car is already attached to it.

Reports: sale, cost, margin, expenses and net, day by day

Money to collect

Who owes what, and the date they promised it.

Showroom costs

Rent, salaries, bills, advertising — month by month, beside the margin.

Part exchange counts

Taken in as money received, so the margin on both cars stays honest.

Cash book

Only cash, with a running balance, so it matches what is in the drawer.

Commission

Suggested from your own rule, and tracked until it is actually paid.

Any date range

Day by day, with a CSV export for your accountant.

WHAT YOU PAID NEVER LEAVES THE BUILDING

It is the one thing a showroom cannot afford to leak, so it is built into the system rather than left to whoever is holding the phone.

❑ WhatsApp carries the car, not the cost.

Photos and the asking price. Never your purchase price, never your floor price.

❑ A salesman account cannot see margin.

Not on the car page, not in search, not in a report — the columns are simply not there.

❑ The other dealer's commission is recorded, and printed on nothing.

It is in your books and on no invoice or agreement.

❑ Where a car came from is yours.

The customer sees the car; he does not see the source.

The cash book — only cash, with a running balance, so it matches the drawer

EVERYTHING ON THE FLOOR, TICKED OFF

Not a wish list. This is what is in the system today, and what you will see if you ask us to open it on one of your own cars.

The car's details and a QR code the customer scans while he is standing beside it.

- **Purchase agreement** — between you and the man selling you the car.
- **Dealership agreement** — where you stand between a buyer and a seller.
- **Sale agreement** — between you and the buyer.
- **No commission on any of them** — not the salesman's, not the other dealer's.

HOW WE PUT IT IN

Installed at your showroom, with your staff trained on it — not posted to you as a file and left there.

01 DEMO

On your own car

We put one of your cars into it while you watch. Free.

02 SETUP

Your name on it

Installed with your name, address, phone and your own agreement wording.

03 TRAINING

A full day

Your staff run the showroom on it with us beside them.

04 SUPPORT

Whenever

Phone, WhatsApp, AnyDesk or on-site. First week free.

BEFORE YOU BUY

WHAT YOU NEED

- A Windows computer — anything from the last ten years.
- No internet for the daily work.
- An A4 printer for invoices, agreements and window cards.
- Phones are optional — any Android or iPhone on the showroom Wi-Fi, opened in Chrome.

WORTH KNOWING

- **The licence covers one computer and one user.** A second computer or a second staff login is priced separately.
- **Your data sits on your own computer.** We show you how to back it up — please do it weekly.
- **The screens are in English.** The invoice and both agreements print in Urdu or English.
- **It is for a showroom, not a workshop.** There is no job card or service history.
